Activities of [REDACTED] as Consultant
to D/GP, during the Period 1-5 November 1954

25X1A5a1

1. In the preparation of a Staff Study on the use of photographic intelligence as collateral cover for other CIA intelligence sources, [REDACTED] spent much of the subject period reviewing D/GP activities, functions, objectives and accomplishments. This review was directed toward relating these activities to other CIA intelligence functions, particularly those conducted in OCI and ORR.

2. In addition to a substantial number of papers reviewed, [REDACTED] conferred with a substantial number of real or potential photo intelligence customers in the DD/I Area. Notes were made and a rough outline prepared as a basis for the coverage to be made by the study. A detailed listing of the people contacted and subjects reviewed will be included as part of [REDACTED] final report.

3. Desk spaces have been provided for [REDACTED] in D/GP and OCI. No major obstacles were encountered and the study is proceeding satisfactorily with completion expected on schedule.
